Downhole Tools

KH

Products

- B2 Style Anchor Catchers
 - 4.5" – 7.625"
- AD1 Tension Packer
 - 4.5" – 5.5"
- Custom Fishing Tools
- Subsurface Rod Pump Parts & Components
 - Hard Lined Cages
 - 1.25" – 6.25"

KH

5.5" B2

7" B2

4.5" B2

Equipment Capabilities

- Saws
 - Up to 13" Round Diameter
 - Up to 16" Square Diameter
- Lathes
 - Chuck Size 10" – 24"
 - Between Centers Up To 56"
 - Max Swing Over Bed Up To 28.7"
 - Max Swing Over Cross Slide 23.6"
 - Horsepower 25hp – 50hp
- Mills
 - 30hp
 - Up to X Axis 50"
 - Up to Y Axis 20"
 - Up to Z Axis 25"
- Welding
 - MIG
 - TIG
 - Hard Surface Brazing

KH

Material

- Exotic
 - Monel
 - 400, 405
- Basic
 - Low Carbon Steel
 - 1144, 4130 , 4140 , 1018 , 8620 , 1026
 - Stainless Steel
 - 301, 316
 - Brass

KH

Value Added Services

- Rapid Responses
- Expedited Services
- Reverse Engineering
- Customer Stocking Programs
- On Site Troubleshooting
- Product Improvement Suggestions
- 3D Cad Modeling
- Same Day Shipping (Possibly)
- 50+ Anchors PO = Free Shipping

Notable Customers

KH

Industries Served

- Oil & Gas
- Automotive
- Aerospace

Certifications

- API & ISO 9100: 2015 (certification in process)

KH

Notable Accomplishments

- Have produced some of the largest Hard Lined Cages in producing wells (6.25") specifically for export into the Middle East
- We helped a specific customer refine their tools. Fixing issues with top and bottom subs, correcting dimensions on their prints, modifying housings and cones to help them arrive at the product they wanted while simplifying the manufacturing process in house
- We have improved the B2 Anchor in many ways starting with unique metallurgy to increase compressive strength of our 5.5" tool cones. A bit more space over standard tools in the acme threads which prevents sand lock. The tool can be lifted up and pushed down on pushing the sand to the sides allowing the tool to unset/unscrew which backs off the slips, non split caps on 7" and 5.5" with locking mechanisms similar to 4.5" tools, non split body nuts on 5.5" similar to 7" tool -XL top and bottom subs that prevent mandrel from breaking in applications that require more tail pipe

Our Beliefs

- High Quality Products
- Safe Workplace
- “Get it Right” mentality for Customers
- Win-Win Business
- Adding Value to our Customers
- On Time Delivery
- Competitive Pricing
- Honesty & Integrity
- Consistent Communication
- Quality Packaging

The logo consists of the letters 'K' and 'H' in a bold, italicized, sans-serif font. The 'K' is positioned to the left of the 'H', and both letters are slanted to the right.

Family History

- Andrew Kattula

- Born & raised in Troy, Michigan. The son of Robert & Maria Kattula. He graduated High School from Rochester Adams then earned his associate degree from Oakland Community College & his Bachelor of Business with Major in Finance from Oakland University. Andrew joined business with his father to learn his craft, in addition, use this skill to not only purchase distressed operations but purchase them to fix and operate for years to come.

- Robert Kattula

- Born & raised in Baghdad, Iraq. He moved to the United States in 1977. Robert became a self-taught entrepreneur. Robert has bought and sold over 50 companies in various industries throughout North America, focusing on distressed businesses with a goal of repairing the operation for the purpose of sale.

KH

Our Future

- Acquisitions
 - Robert, Andrew & CFO Dusica Simovski will continue to seek acquiring competing business, businesses manufacturing similar components or businesses with similar major customers in order to become a more diversified supplier with vertical control.
- Organic Growth
 - Andrew, alongside sales managers of each operation, continue to aggressively pursue increased business with current & prospective customers. Taking on aggressive marketing techniques and practices
- Reinvestments
 - Acquire new machinery & equipment for efficiency purposes. In addition, stocking material for top customers to reduce lead times.

The logo consists of the letters 'K' and 'H' in a bold, italicized, sans-serif font. The 'K' and 'H' are dark blue and are positioned close together, with the 'K' slightly overlapping the 'H'.
